

One-Stop Aviation Fueling Solutions...

...from the only manufacturer who can offer a complete aviation fueling package

For over sixty years, Cla-Val has been the preferred source for valves and fueling equipment for commercial and military airports around the world. Not only do we produce the finest quality products in our onsite foundry and manufacturing facilities, we also have an in-house engineering department and unparalleled technical expertise.

Automatic Control Valves for Fueling Systems

- High level shut-off
- Filter separator discharge control
- Pump control
- Protects against reverse flow, damage caused by surge and extreme pressure fluctuations
- Available in aluminum, cast steel, stainless steel or ductile iron

Underwing Refueling Nozzles

- Compact and lightweight
- Multiple configurations available for commercial or military jets
- Simple, streamlined design for easy connection to any size aircraft
- Durable hard-anodized aluminum and stainless steel construction

Pressure Control Fueling Couplers

- Accurate pressure regulation and reliable surge pressure control
- Choice of air or hydraulic deadman
- Simple design capable of swiveling 360° after connection to adapter

Hydrant Pit Valves

- Conforms to API 1584 Third Edition
- Optional excess flow shut-off for pneumatic and manual deadman styles
- Stainless steel and ductile iron body - no aluminum

X69 Series Flow Compensating Venturie

- Emulates the delivery pressure at the refueling nozzle
- Adjustable pressure drop compensation
- Two separate adjustable outputs
