

Electronic Reservoir Management Valves

Keep your reservoir management system flexible with Cla-Val Electronic Valves

- SCADA compatible
- Helps to maintain water quality objectives
- Changes to settings can be made remotely to meet evolving requirements, based on information received by your SCADA system
- Remote visual display provides real-time system data
- Valves can be set for delayed opening, flow proportioning, back pressure control, modulation and more
- Minimizes the need for confined space entry
- Existing installed Cla-Val control valves can be field retrofitted with electronic controls
- An all hydraulic valve solution is also available
