

Where art meets engineering

Cla-Val Roll Seal Valves for fountain control

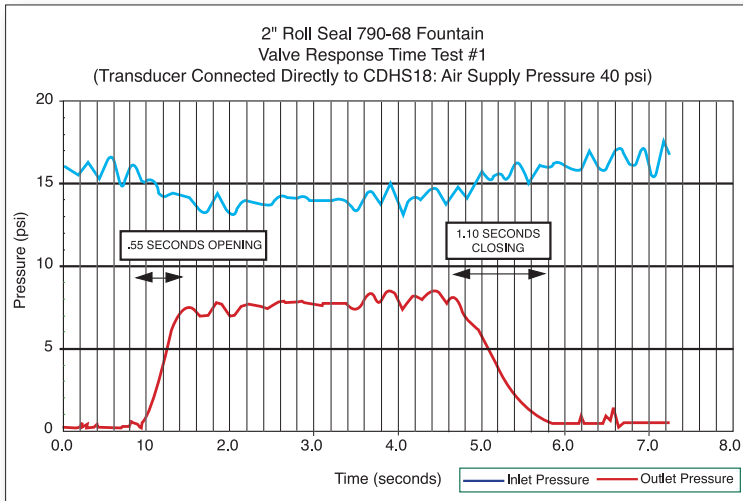

Few things fascinate more than the sight and sound of dancing waters and soaring liquid displays. Harnessing the power of air and water to create these effects takes more than just imagination. It requires fountain flow control at it's most responsive: *the Cla-Val Roll Seal Valve with optimum linear control.*

Manufactured by one of the most trusted names in the valve industry, Roll Seal Valves are used in water features and fountains at world-famous resorts and entertainment venues, municipal and civic centers, and commercial buildings around the globe to create the most dazzling of water displays.

Product Advantages

- Fastest response time
- Durable 316L Stainless Steel construction
- High rangeability
- Compact, lightweight design

Typical applications include wind control, nozzle control, variable setpoint pump bypass, water cannon control, height control and I-to-P control

To learn more, visit www.cla-val.com and type Roll Seal in the search field

Innovation...Experience...Know-How

As a leading manufacturer of automatic control valves, Cla-Val has served the following markets since 1936:

- Waterworks
- Fire Protection
- Aviation Ground Fueling
- Marine and Shipboard Service

We offer many advantages to our customers worldwide, including the following:

- In-house Engineering Department
- Onsite investment and sand casting foundries able to pour more than 50 different metals and alloys
- 20-acre manufacturing facility in Costa Mesa, CA
- Production facilities in Perris, CA; Ontario, Canada; Switzerland; the United Kingdom; and France
- Extensive technical training capabilities
