

GOT VIBRATION?

Cla-Val valves with anti-cavitation trim are the ideal solution for applications with a high probability of vibration

- Cla-Val's patented KO anti-cavitation trim helps protect piping from damage caused by vibration
- Minimizes vibration across the relief valve during pump starts
- Alleviates vibration caused by cavitation when discharging to atmosphere or in other applications with excessive pressure fluctuations

Other advantages include the following:

- Special alloys and metals available, including Monel, and 316 Stainless Steel
- Existing Cla-Val control valves can field retrofitted with KO anti-cavitation trim
- Proven track record of trouble-free performance on offshore platforms around the world
- Backed by more than seventy years of industry experience
- Three-year warranty

Typical Cla-Val Anti-Cavitation Application

Fire Protection Systems aboard
Offshore Oil Platforms

Innovation...Experience...Know-How

As a leading manufacturer of automatic control valves, Cla-Val has served the following markets since 1936:

- Waterworks
- Fire Protection
- Aviation Ground Fueling
- Marine and Shipboard Service

We offer many advantages to our customers worldwide, including the following:

- In-house Engineering Department
- Onsite investment and sand casting foundries able to pour more than 50 different metals and alloys
- 22-acre manufacturing facility in Costa Mesa, CA
- Production facilities in Perris, CA; Ontario, Canada; Switzerland; the United Kingdom; and France
- Extensive technical training capabilities
